RE: Acceptance, Closure Summary Report for RCRA Units 15 and 35 Closed In Accordance With RCRA Under
The RSOP For Facility Component Removal, Size Reduction And Decontamination Activities

Dear Mr. Rampe and Mr. Nesta:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the "Division") previously received the subject report from Kaiser-Hill Company signed on July 28, 2003. The Division, in a letter dated November 22, 2002, conditionally approved the Notification to utilize the RSOP for Facility Component Removal, Size Reduction and Decontamination Activities protocol from DOE dated November 13, 2002.

The Division's November 22, 2002 letter established five conditions, which were met with the two minor exceptions:

- Condition 3 specified that Pre-Demolition Surveys (PDS) be performed on Tents 8 through 11. Tents 8 and 9 were subsequently designated Type 1 radionuclide facilities obviating the need for the surveys.
- Condition 5 for a professional engineer certification was precluded by the removal of all equipment and structures from the location of the units, rather than clean closure in place.

Accordingly, the CSR for the unit is accepted. If you have any questions concerning this correspondence, please contact me at 303-692-3367 or Harlen Ainscough at (303) 692-3337.

Sincerely,

David A. Kruchek
David A. Kruchek
